|---|--|
| <input type="checkbox"/> Technical requirement | <input type="checkbox"/> Change of production process/logistical changes |
| <input type="checkbox"/> Customer requirement | <input type="checkbox"/> Location of production moved |
| <input checked="" type="checkbox"/> Quality improvement | <input type="checkbox"/> Other: |

Description of change:	<p>Introduction of minor modifications on Java embedded platform. The implemented change improves the directory path access check of internal flash file system, which can store application-specific data or data needed for customer Java applications, TLS and OTAP functionality.</p> <p>All changes are done on application layer only. For identification of improved firmware a new SVN, RN and ARN will be introduced same as corresponding PTCRB and AT&T approval update. Details concerning SW availability, SVN and timing for first shipments will be announced accordingly in a separate follow up PCN. In case of further questions our Technical Sales team offers comprehensive support.</p>
Schedule details:	
Availability of SW for evaluation:	Q1 2020, details follow in separate PCN update
Availability of modules ex Thales warehouse:	Q1 2020, details follow in separate PCN update
Timing note:	If Thales does not receive a notification to the contrary within a period of 6 weeks, Thales assumes that the customer agrees to the change.
Quality assurance measurements:	The new version fulfils all internal test requirements according to our Quality Management process and philosophy.
