3. Impacts of the EOL					
Risk Assessment	<ol style="list-style-type: none"> BC95-G is pin-to-pin compatible with BC95. There are some differences in terms of hardware and software designs, please refer to <i>Quectel_BC95&BC95-G_Difference_Introduction</i> for details. 				
Suggested Implementation Plan	<ol style="list-style-type: none"> Through rigorous and complete testing, Quectel confirms that BC95-G module fully satisfies qualification and performance requirements. It is recommended to perform compatibility tests before using BC95-G for mass production. There may be a need to update mandatory approvals on customers' products. Samples are available now. For any relevant need, please contact your regional sales or distributors.
